UX/UI designer with 3+ years of experience designing end-to-end digital products across web and mobile. I focus on simplifying complex workflows, improving usability, and creating scalable design systems. Comfortable working closely with product, developer, and business teams to deliver solutions that balance user needs with real business impact.

EXPERIENCE

Unixdev Co.,Ltd. (UX/UI Designer) Aug 2025 – Present

- Led end-to-end UX/UI design from discovery to final UI and developer handoff
- Redesigned a web portal, improving usability and increasing task completion by ~25%
- Built and maintained a design system (components + guidelines), improving consistency and scalability
- Reduced design-to-development time by ~40% through reusable components and clear design patterns
- Delivered responsive designs across desktop, tablet, and mobile
- Collaborated closely with product managers and developers to align user, business, and technical needs

AI & Workflow Optimization

- Used AI tools to accelerate design system creation and prototyping
- Applied AI workflows (Cursor, MCP) to improve iteration speed and team collaboration
- Reduced prototyping and iteration time by ~30%

Synergy Global Network Co.,Ltd. (UX/UI Designer) Nov 2022 - Jul 2025

- Liaised with marketing to improve user experience across all channels, including email, mobile app, and social media advertising, leading to a 35% increase in revenue
- Led application design sessions with client teams on projects to develop functional and technical requirements
- Analyzed impact and effectiveness of in-app UI changes on customer retention; identified features of customer behavior and recommended additional menu modifications
- Suggested innovative responsive mobile design ideas that boosted sales conversion
- Developed reusable UI components with React and styled-components, boosting scalability and reusability by 70%

Freelance (UX/UI Designer) FEB - APR 2025

- Produced customer web-application, improving user flow and user experience by over 10 Menu
- Developed a comprehensive eCommerce platform for a freight forwarder business using WordPress, enhancing their online presence.
